

BEERFLEX ADMIXTURE™

Technical Data Sheet

Beerflex Admixture™ is a specially formulated additive designed to mix with cement to create a more fluid mix for easier pouring, casting, and leveling. It builds tremendous flexural strength, minimizes cracking, and minimizes spalling. It is formulated to mix with most cementitious products to maximize performance and strength.

This product is non-hazardous and non-toxic.

Instructions: Contents are to be mixed in water and then mixed into 50-55 pounds of aluminosilicate cement. Use the amount of water recommended by the manufacturer of the cement. It may be necessary to add more water until the cement is a light pancake batter consistency. If mixing with Portland Cement, use 1/3 of the contents per 50-55 pounds of cement.

The product should be stored at room temperature and not subjected to moisture. The shelf life is six months to one year.

The product comes in a quart can.

Important notice to purchaser: You must evaluate and determine whether this product is suitable for your intended application. Since conditions of product use are outside of our control and vary widely, the following is made in lieu of all express or implied warranties of merchantability. Our only obligation and your only remedy is replacement of product, at the option of GG Innovative Products, Inc. In no case will GG Innovative Products, Inc. be liable for any direct, indirect, special, incidental, or consequential damages including lost profits, goodwill, or business opportunity.
